Boil Water Notification

Due to conditions which have occurred recently in the water system, the Texas Commission on Environmental Quality (TCEQ) has required the system to notify all customers to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and for making ice should be boiled and cooled prior to consumption. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source. When it is no longer necessary to boil the water, the water system officials will notify you.

We are completing a comprehensive assessment of our water system and of our monitoring and operational practices to identify and correct any causes of potential contamination.

If you have questions regarding this matter, you may contact Jay Simons at (432) 371-3146.
